COAX TO OPTICAL CONVERTER

Digital stream I/O. 70x45x22mm. P/Pack supplied.

Code
OPTO820

AUDIO FORMAT CONVERTER

VICE-VERSA and/or LINE EXTENDER

Converts Coaxial (S/PDIF) to Toslink or Toslink to Coaxial and repeater, Accepts S/PDIF audio signal input through either Coaxial cable or Toslink cable, and passes the signal (as is) to both its coaxial and Toslink output ports. With its built-in amplification feature, can also serve as a repeater to extend (double) the cable transferring distance.

Code
DCT-2

OPTICAL PCM TO STEREO ANALOGUE

CYPRESS DIGITAL DECODER

Compact unit with stereo audio output converted from Standard 16 bit PCM (Digital) Input is Toslink Optical or RCA PCM connections. Compatible with DCT4 and LPCM Stereo CD players. Accepts sampling frequencies 32KHz, 44.1KHz, 48KHz, 96KHz. White 42x40x22mm compact

Code
DCT-3

STEREO ANALOGUE TO OPTICAL PCM

CYPRESS FORMAT CONVERTER

Compact unit with stereo audio in and converts it to 16 bit PCM (Digital) output to Toslink Optical and RCA PCM connections. Compatible with Digital home-theatre and receivers or other digital items, etc. Sampling rate 48KHz LPCM Linear Pulse Code Modulation

Code
DCT-4

DIGITAL OPTICAL AUDIO SPLITTER

DIGITAL OPTICAL AUDIO SPLITTER

TOSLink (Optical Fibre) cables required. The Optical Fibre cables connected to both ends of the unit can run up to a range of 5 metres while still able to provide reliable and lossless audio signal transmission. The product is compact and easy to install, which makes it a very handy gadget, recommended for either home or professional audio distribution.

DVI STANDARD & SLAC PREMIUM GRADE CABLES

Due to the high bandwidth demanded by Uncompressed Digital Video, extra high quality cables are required to reduce drop-outs, etc. Runs of greater than 5 metres will not work without Special Cables

24AWG Super Low Attenuation Cable Reduce "Sparkles" and dropouts. Our 24AWG Interconnects use the best cable for the required task. The highest grade OFC copper, wrapped in full shielding for low noise. These cables have been tested and are true to their performance claims.

Converters/Splitter/Amplifiers/Switches are available. Please Enquire.

NEW AVLINK HIGH GRADE HDMI DIGITAL INTERCONNECT

24AWG HEAVY-DUTY QUAD SHIELDED CABLE

Full 1080p/i High Definition Picture Quality Support. 24k Gold Plated Contacts. For Optimum Signal Transfer. Plug is encased in attractive sturdy metal housing. High Quality Interconnect designed for high bandwidth and maximum conductivity between digital AV equipment. Twisted pair cables are individually fully shielded. Foam skin insulated individual cables for wide bandwidth.

Aluminium Mylar full wrap with full braid quad shielding. Tough but flexible Black PVC outer protective cable jacket. Increased Noise Rejection with Ferrite Cores at either sides of the cable, reducing RF Interference picture speckles.

Certified HDMI V1.4 standard by an Authorised Testing Centre. Technology Laboratories assess to international standards, ensuring you get the latest technological developments for maximum compatibility between all your HDMI devices. Double blister packaging for a very attractive product.

LOW-NOISE LOW-LOSS DIGITAL INTERCONNECT & ETHERNET

Premium grade Hi-End AVLink Low-Loss Cables Fully ATC Tested to V1.4 with high-speed ethernet. 192 Braided 24AWG Quad shielded cables. 24K Gold Plated connectors in metal plugs. Attractively double blister packaged.
