PEERLESS XPANDED-XTRA-LONG-STROKE SUB WOOFERS

A NEW CLASS OF HIGH SPL BASS FROM SMALL ENCLOSURES

Extreme performance heavy duty subs that are built for GO not just show. Sound quality competition award winning. Audiophile grade tight clean bass Engineered for faithful reproduction with low distortion at very high SPL Advanced design using patented technologies and superior Q' manufacturing Large over-sized components. Light weight extra strong ridged alloy frame An incredible 50mm cone exertion. Open spider for low compression venting Double stack magnet system optimised by Finite Element Analysis to create a unified symmetric powerful magnetic field producing very high efficiency Xtra-Long multi-layer 2"Ø black anodized aluminium high power voice coil. Unique distortion reducing motor using aluminium shorting ring and spacer. This results in a lower self induction & impedance varying with exertion
A unique formula ultra-stiff wood-free pulp cone is also weather resistant Bonded together with a blend of polymers, glass fibres and Nomex® SBR rubber surround gives high travel compliance, low creep and long life. All this combines to produce a sub woofer that is a cut above the rest. Very Low, Smooth & Tight Distortion-Free Bass from very compact enclosures.

XLS 10" XTRA-LONG-STROKE 4Ω (2½Ω)

Design principles & the latest materials in the XLS range have achieved a new generation of low-frequency transducer. This range of subwoofers will pound the competition in both low frequency muscle and accuracy. A low Vas means a small box. For car applications this can be very small. Double magnet. Cast Aluminium frame. Ventilated coil. Suit sealed/vented/passive.

XLS 12" XTRA-LONG-STROKE 4Ω (2.2Ω!)

LOW IMPEDANCE

Ballistic performance driver tweaked for use in car audio applications giving you advantages that will annihilate the competition. Specifications are best suited for small enclosure systems with very, very high current output amplifiers (2Ω rated amp required). Very clean. Very smooth. Double magnet. Cast iron frame. Gold 4mm binding posts. Massive sound.

XXLS 12" XPANDED-XTRA-LONG-STROKE 4Ω (Al)

ALUMINIUM CONE

The new range of Xpanded Xtra Long Stroke (XXLS) subwoofers from Peerless has pushed the performance limits for subwoofers again. XXLS have unexcelled long exertion performance with very low distortion. Mechanically robust, yet highly efficient, low Fs and low Qt. Suitable for small vented boxes.

PURE-SINE-WAVE INVERTERS

CITY POWER ON THE MOVE!

Low noise pure sine wave removes many problems caused by modified sinewave inverters Appliances run smoother & cooler. TV Monitors are crystal clear Induction motors start better reducing turn-on surge demands. Essential for some equipment especially sensitive technology and medical equipment, etc. Also appliances that use the mains as a timing reference. Very high 300% surge currents GSL manufacture their products with greater quality control specifically for Australian conditions.

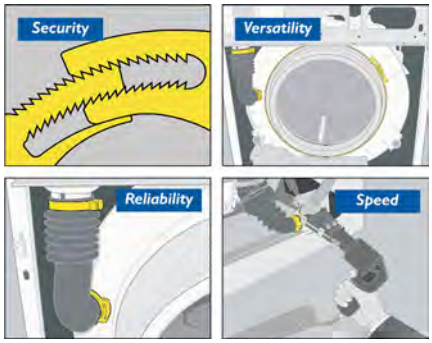
THE HERBIE CLIP™

When it comes to hose clamps, nothing beats the reliability and speed of fitting the Herbie Clip. Available in a comprehensive range of sizes, the Herbie Clip is a one piece nylon hose clamp that uses a proven double row of interlocking teeth to produce an extremely secure and reliable fit. Near perfect circle fitting for a better, tighter seal as a hose clamp. Quality molded from Nylon 6.6 carbon based polymer for extra long life. The Herbie Clip is totally resistant to any atmospheric conditions. Impervious to a majority of chemicals and fuels, salt water, etc. Excellent solution for long term reliability in hostile environments. The result is an extremely strong clamp guaranteed to 200psi ! A popular solution in many industries worldwide for eighteen years now.

Unlike any other hose fastener available, the Herbie Clip with its patented dual interlocking tooth design allows the fastest and easiest application with incredible reliability, durability and functionality. The clip is Heat, Cold and UV stabilised. It will not rust or corrode. It won't react with contaminants nor damage or react with the application. An impressive solution for many situations offering many advantages. The clip is an economical solution as it is cheaper than metal strips and the ease and speed of application saves considerable time and money. Specific hand tools for reliable and consistent operation is available, however, the Herbie Clip can also be fastened by a pair of Multi-Grips. Easy removal for unlimited re-use of the Herbie Clip and easy re-work.



WHY USE THE HERBIE CLIP™?
Patented double jaw design for 200psi strength Heat & UV stabilised. Impervious to contaminants Quicker & easier to fit or adjust than metal clips Improved safety as no sharp edges to cut operator Minimal leak path as clamps to a near perfect circle Fitting & Removal tools available for production use Carbon based polymer will never rust or corrode Non conductive so more suitable for cable fixing No electrolytic reactions with other metals, etc. 18 years of field use in many fields & applications Simplistic, cost effective.
